

*Lisa Mallard, Registered Nurse*

As the leader of the Camden home health office, *Lisa Mallard, RN*, and her team are focused on helping patients avoid rehospitalization. You can count on Tennessee Quality Care to take these steps to restore patients' health:

- ▶ Starting nursing care within 24-48 hours of referral
- ▶ Developing comprehensive care plans, which may include physical and occupational therapy to improve quality of life
- ▶ Coordinating insurance coverage with the team's two OASIS-certified nurses
- ▶ Educating patients and families about their care
- ▶ Monitoring patients' progress from start to finish

# Meet Our Camden Home Health Clinical Manager

*Serving Benton and Humphreys Counties*

**Lisa Mallard** comes to Tennessee Quality Care Home Health after working 23 years in Tennessee hospitals. Her passion for health care began in hospital operating rooms, where she was a certified surgical technician for more than a decade before returning to school to earn her bachelor's degree in nursing from Murray State University in Murray, Kentucky.

"I have followed a career path I truly love," says Lisa. "For many years, my passion was in the operating room, where I assisted in a vast array of surgical procedures for general, orthopedic and cardiac patients. In that role, I learned a lot about wound-care best practices, which are vital to recovery."

Now, Lisa is leveraging her experience to ensure patients have the quality care they need at home, where they are most comfortable. Her knowledge of post-surgical wound care will be particularly welcome among providers and their patients.

Outside of work, Lisa enjoys spending time with her family, spoiling her grandkids, gardening, fishing and just enjoying the outdoors.

"I am very excited about this new journey into home health," says Lisa. "I look forward to serving patients in Camden and surrounding areas."
